

Building Bridges: A child centred cross-cultural parenting experience

Newsletter #2

8th March 2016

2016 has had a busy start for the Building Bridges project. We have made tremendous progress in our engagement with the Indian & South Asian communities and have continued our Community Conversations in Boroondara via primary schools, temples and neighborhood houses.

Each Community Conversation has helped us get a better picture of the key challenges that parents face in a cross cultural environment. This has aided us to identify issues that we can address in ***Building Bridges: Cross Cultural Parenting Experience Modules*** we will deliver at the end of the pilot project.

The Building Bridges online survey for the community has also been launched and has elicited great response. The survey offers parents a safe and anonymous way to highlight issues that matter to them and give us valuable feedback as we plan our modules.
