

JOINT ANNOUNCEMENT
8th June 2018

Camcare inc and Access Health and Community Amalgamation

The Board of Directors of Camcare inc and Access Health and Community are pleased to announce that they have now signed a Merger Deed to amalgamate the two services from July 9th 2018. This follows the March 14th announcement that an 'in principle' agreement had been reached to amalgamate the two services.

This is a very positive step for both organisations as they move forward with the amalgamation process, sharing a solid working relationship and a common vision for how community support can lead to a happy and healthy community.

In the future, Camcare inc will be known as Camcare and continue to provide services from its sites in Camberwell and Ashburton.

The Boards and staff look forward to a seamless integration of the two high quality services and to continued positive relationships with partners, families and stakeholders.

Peter Turner
Chair
Access Health and Community

Peter Stansfeld
Acting President
Camcare inc
